# CatRIS
Catalogue of Research Infrastructure Services

CatRIS is an **open, trusted and user-friendly portal to a harmonised and aggregated catalogue of services and resources provided by Research Infrastructures (RI) and Core Facilities (CF)** across Europe.
It is a bottom-up initiative that is meant to be populated and run by RI and CF service providers at European, national, regional and institutional levels. CatRIS will be complementary to and interoperable with the EOSC catalogue.

Why CatRIS?

Need for

Consolidated information about RI services in Europe

Structuring the available RI information

CatRIS Solution

Central interoperable portal of RI services

Interconnection of multiple databases

Enhanced RI accessibility, usage, and impact

A network of networks around the various RI communities

Option to compare RI services offered by different providers

Fostering of European and international collaborations

Towards a marketplace of RI services

The **active engagement of the whole RI community,** at all levels (European, national, regional and local/institutional), is critical for the success of CatRIS.

CatRIS is being developed by an international consortium led by ESF and funded under the H2020 Programme. For more information and to get involved **visit our website catris.eu.**
